

Course Overview

In this one-day course, you will learn how to enhance audience experience and presentation delivery by using advanced PowerPoint features. You will learn how to differentiate your presentations by selecting and modifying a Theme and saving it as a template, creating custom colors and using text objects, shapes, tables and organization charts. You will also learn how to deliver complex content using clip art, photographs, and advanced drawing and animation techniques. You will learn how to create a photographic slide background, control the display of embedded graphics and how to build interactive presentations by using hyperlinks. You will also learn how to add and modify charts.

Courses in the Microsoft PowerPoint Series

PowerPoint Level 1
- 1 day -

PowerPoint Level 2
